

8th January 2025

Dear Families

Family Survey Feedback

Happy New Year! We hope you enjoyed a restful holiday. Thank you for taking the time to complete our recent family survey. We're thrilled to share that we received the highest number of responses ever!

We were delighted to see so many positives in your feedback, especially the comments about how happy your children are at the academy and your recognition of our high expectations. Many of you also noted improvements in key areas, including:

- Behaviour and discipline
- Communication
- Attendance
- Academic progress
- Wider opportunities for students

Thank you for acknowledging our efforts in these areas. We remain committed to building on this progress.

We also appreciate your suggestions on how we can improve further. Here's how we're addressing some of the main themes from your feedback:

- **Personal Development:** Some families weren't sure how we support students' personal development. We offer a comprehensive programme that includes a dedicated weekly lesson for Years 7-9 and special drop-down days for Years 10 and 11. We'll work on communicating this better. You can explore information about our Personal Development Programme on our website [here](#).
- **Curriculum Information:** A number of families asked for more clarity about what students are learning throughout the year. Our website already includes detailed curriculum information for all subjects. However, we're redesigning the website to make this information even clearer and easier to find.

A small number of families shared specific concerns. Please know that a member of my team will be in touch with you directly to address these over the next few weeks.

We also gathered feedback from students through their own survey. I've been discussing their thoughts in assemblies and we'll share our next steps with them later this term.

Thank you again for your time, feedback and ongoing support. We look forward to continuing to work together to ensure the best experience for your child throughout 2025.

Yours sincerely

Mr G Coles
Principal
